

ajde da pravimo pare

bebić / teh @ petnica / april 2024

problem: internet banka

problem: centralizovane banke

problem: ljudi lažu
naročito kad su pare u pitanju

ledger

niz transakcija

problem: kako razglasiti transakcije

problem: "poslao mi je on"

rešenje: **digitalni potpisi**

problem: ko je ko ?

problem: duplo trošenje

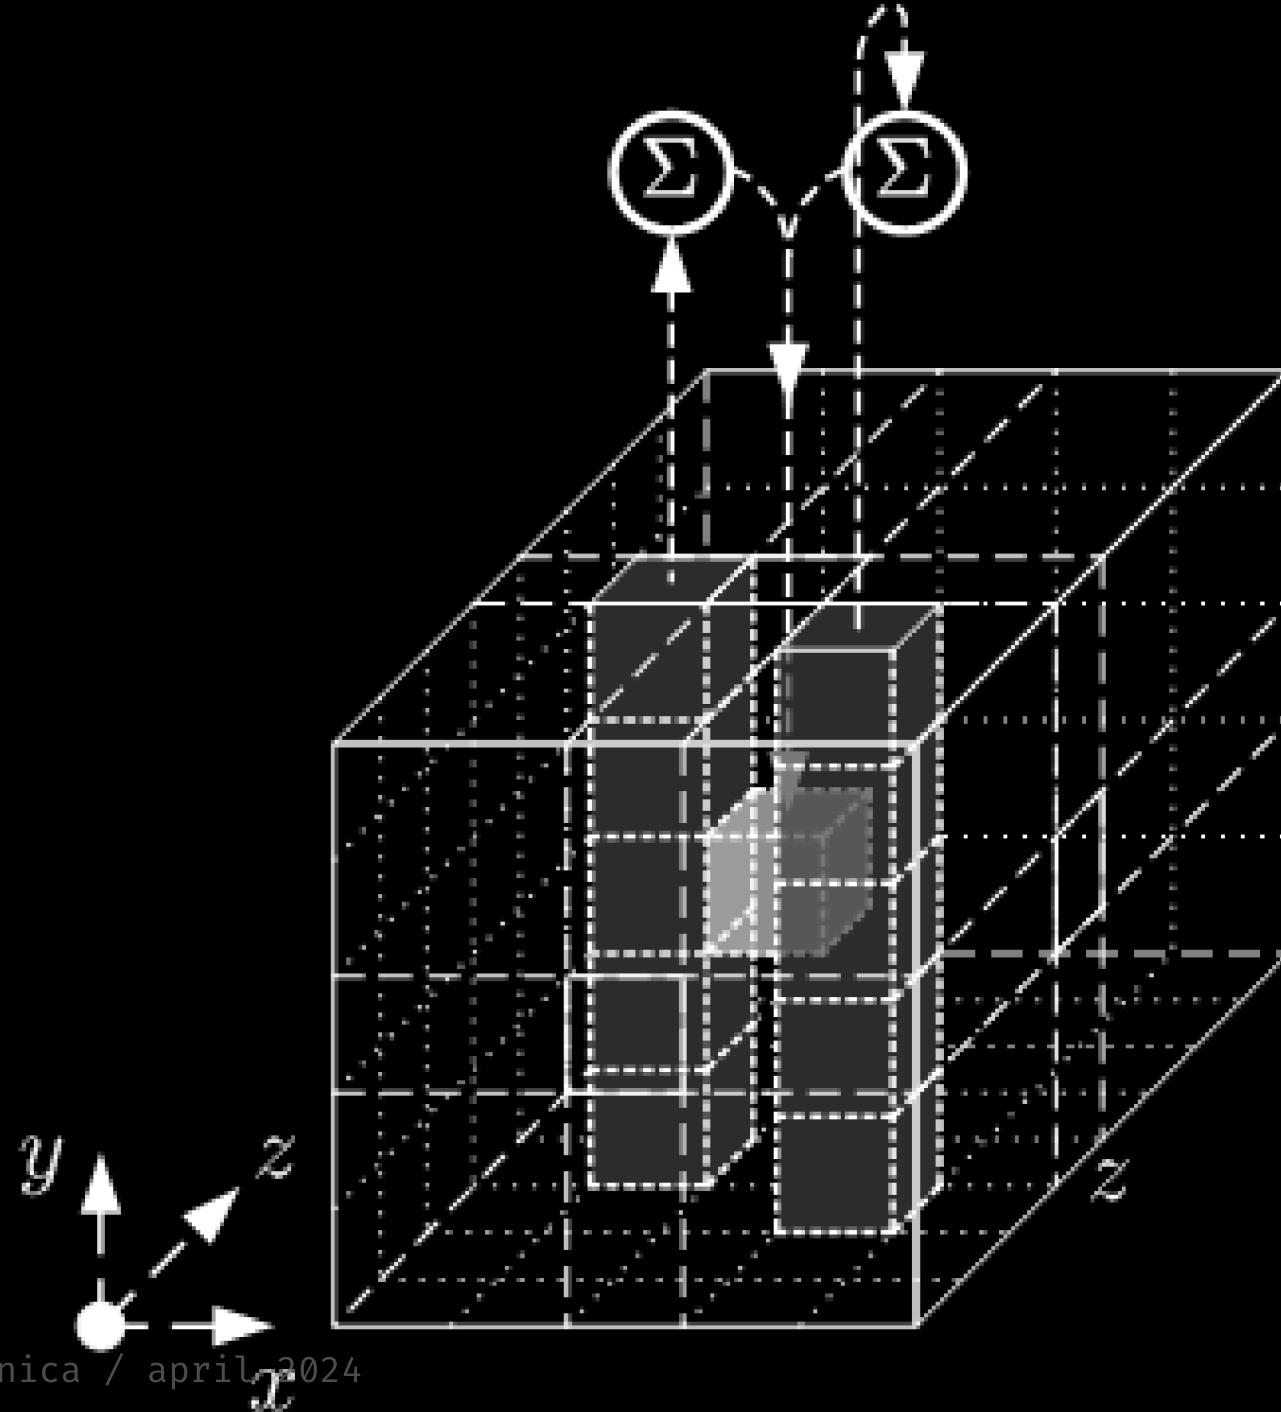

moramo poređati transakcije u **niz**

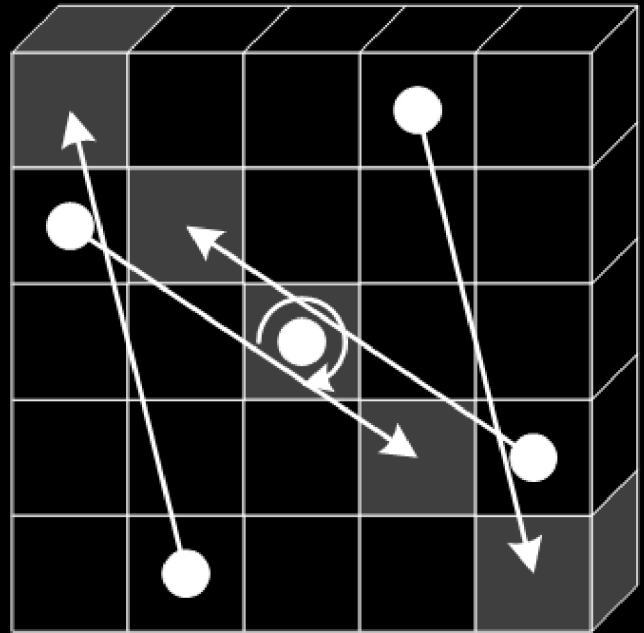

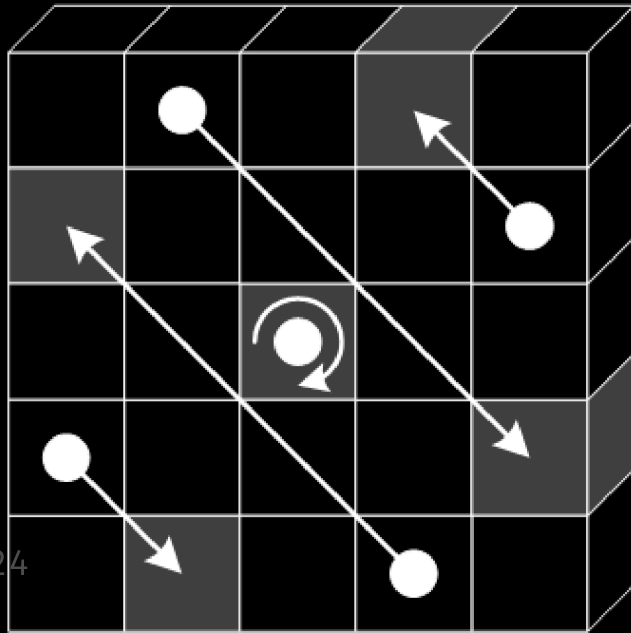

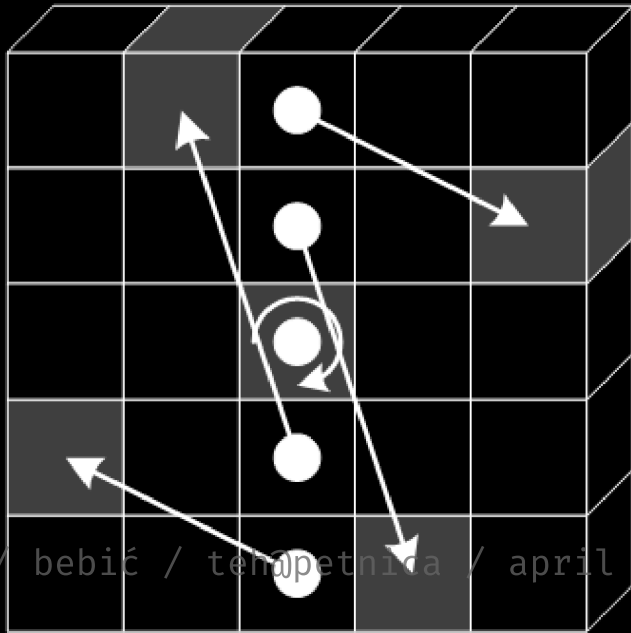

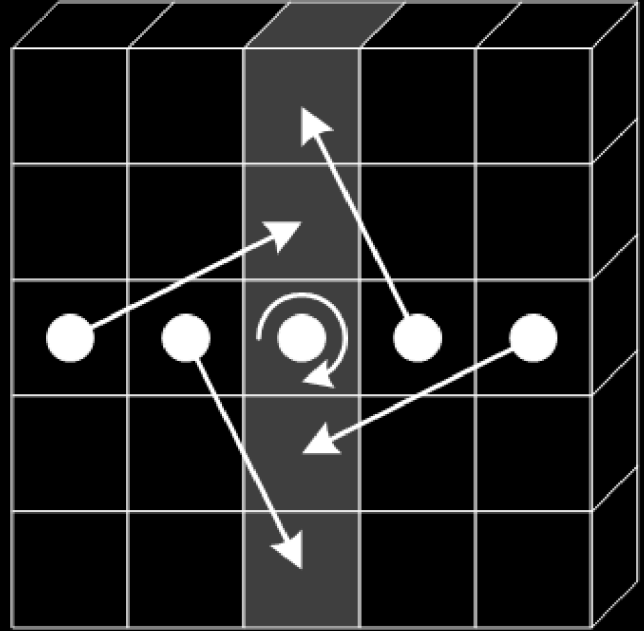

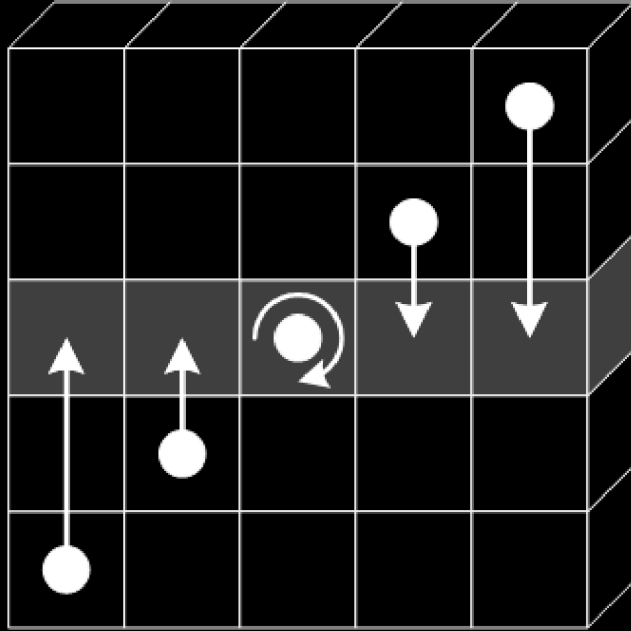

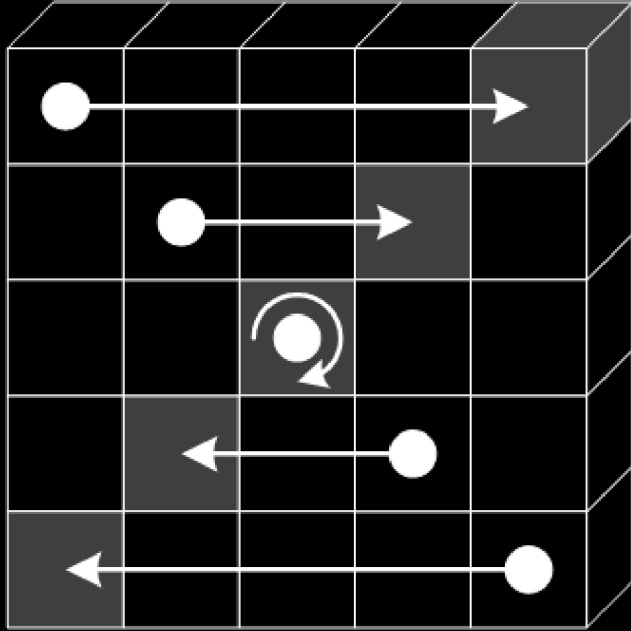

problem: kako da svi imamo isti niz

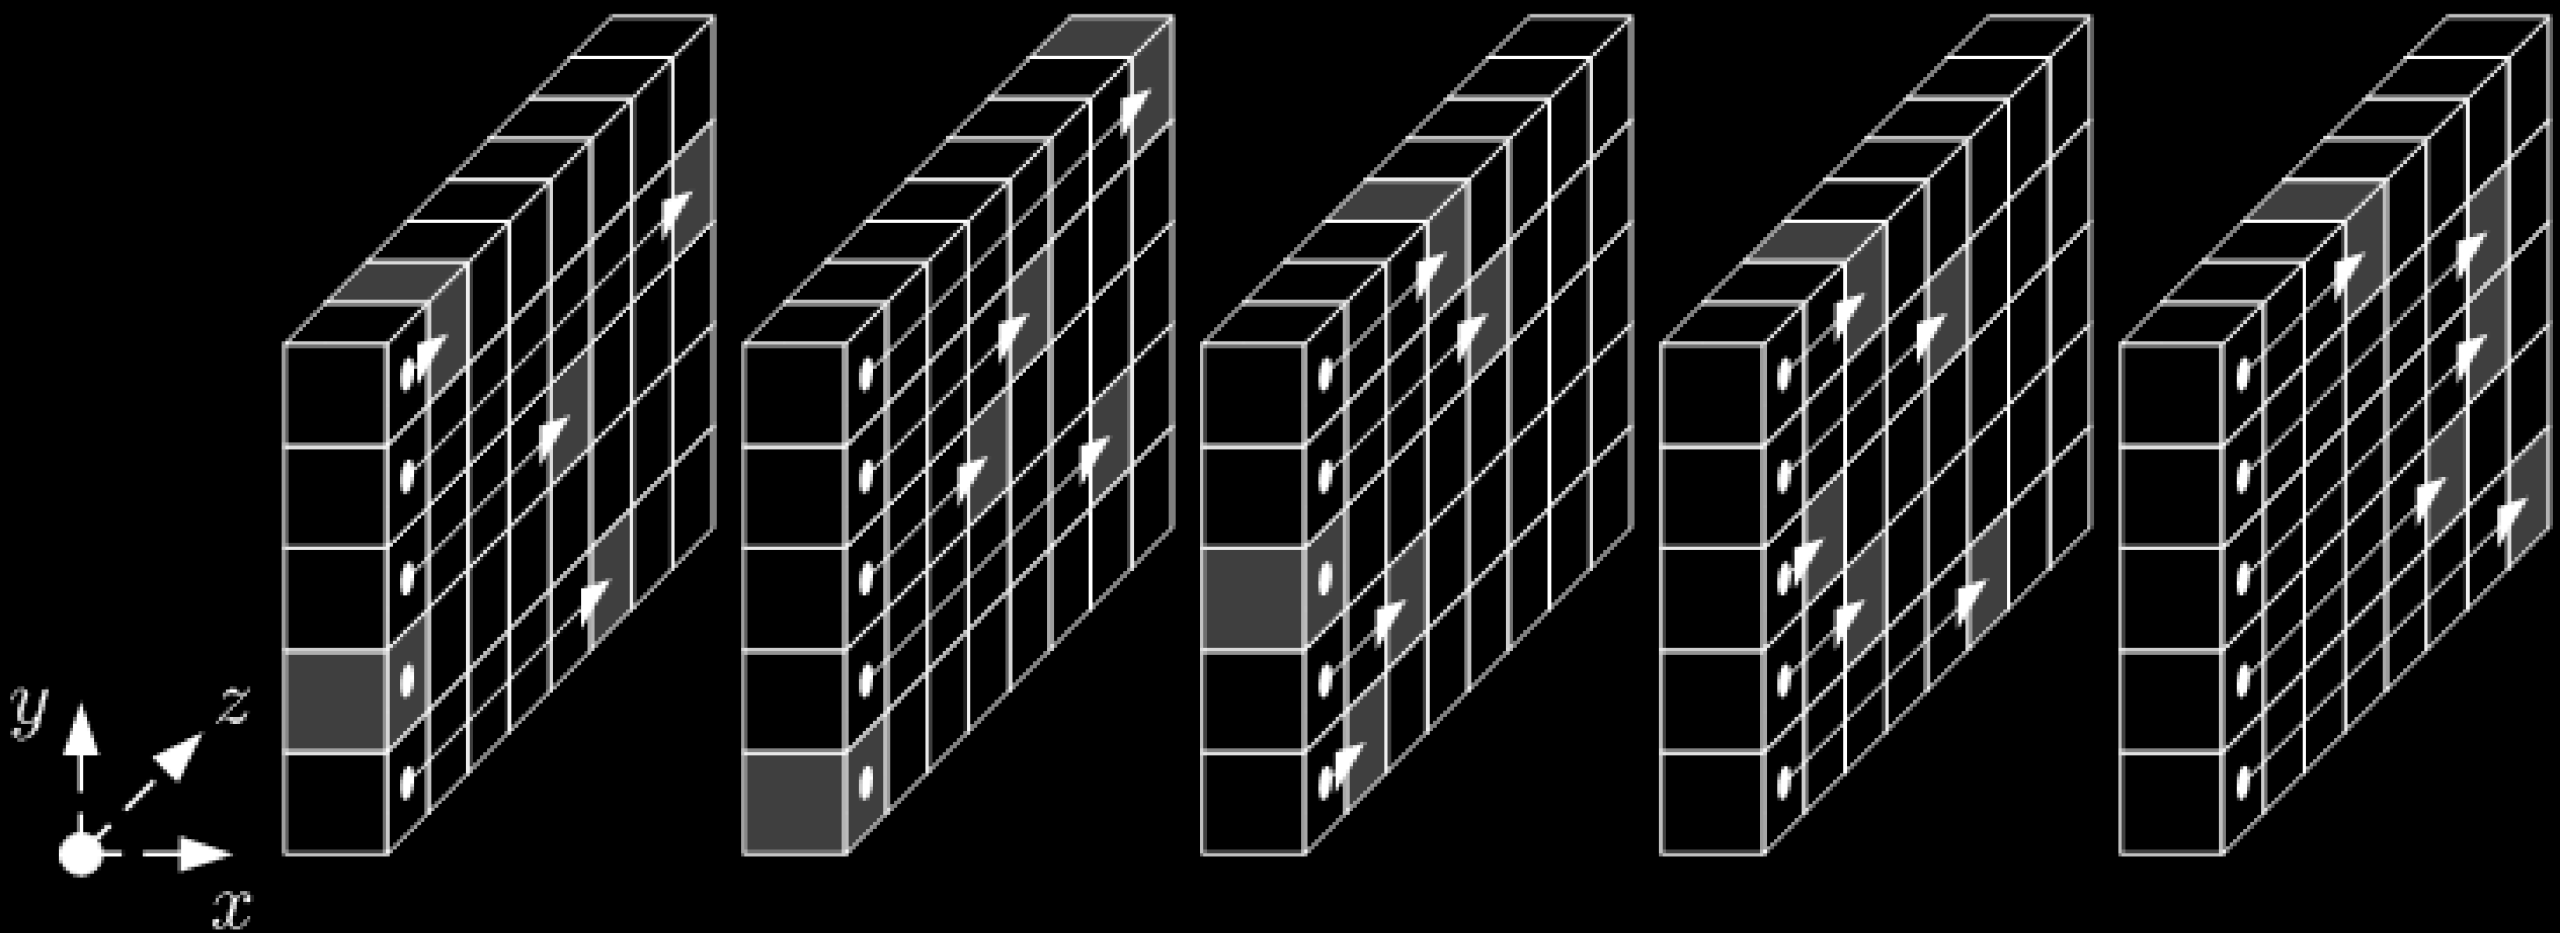

heš funkcija

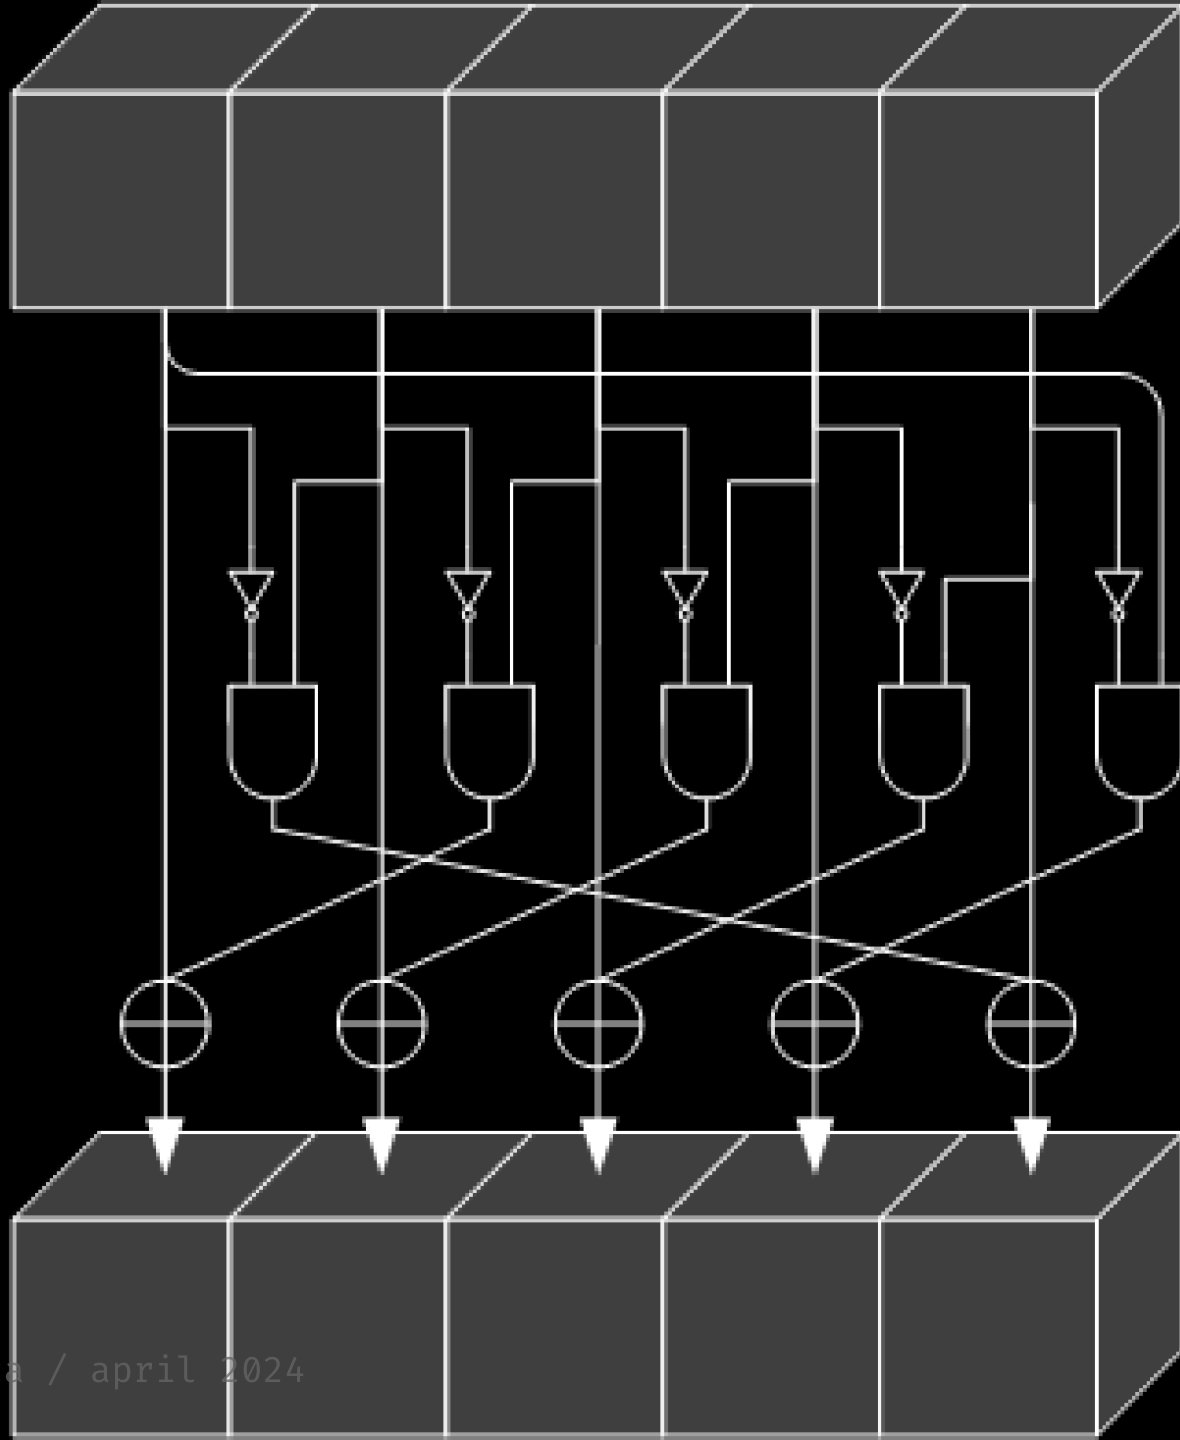

primer

primer: SHA3 (Keccak256)

suština: mnogo podataka → malo podataka

problem: kako da svi imamo isti niz

problem: kako da dodamo još transakcija

problem: kako da izbegnemo račvanje
